

In response to your request for information regarding compliance to European Union Directive 2002/95/EC (RoHS), Nexans provides the following certification:

None of the components of the cables supplied to you by Berk-Tek Electronics Cable contains the following substances at levels exceeding the requirements of the directive:

- Lead, mercury, cadmium, hexavalent chromium
- Polybrominated biphenyls (PBB)
- Polybrominated biphenylethers (PBDE).

We do not intentionally add these substances to our product. This determination is based upon information provided by our suppliers that Nexans believes to be reliable.

Therefore, we hereby certify that wire and cable supplied to you by this facility are in compliance with European Union RoHS requirements.

Sincerely yours,

Teresa Manning
